

BIMObject® Awards 2016

Best use of Private Clouds 2016

Jansen

Winner in the category Best Use of Private Clouds 2016, stands out for its ingenious use of the Private Cloud tool which enables the manufacturer to create and maintain digital product catalogues on its site.

About BIMObject®

BIMObject® Corporation, acknowledged by investors with a Global Red Herring 100 award, and a public company on Nasdaq Stockholm First North: ticker BIM. BIMObject® is a game changer for the construction industry worldwide with its cloud based digital content management system for BIM objects.

BIMObject as a disruptive technology corporation is at the forefront of the digitalisation of building products and materials, enabling the information to be turned into know-how earlier in the BIM processes. The BIM-object Cloud is a digital platform, where BIM professionals can reach and download BIM files from brands, from both Europe and US. This will enable industrialisation of the construction industry and also have a huge impact on design, product selection, constructability, waste, energy, cost, quality and logistics.

Our unique solutions for Building Product Manufacturers provide development, hosting, maintenance, syndication and publication of the digital replicas of the manufacturers' products – BIM objects. The marketing and pre-sales services associated with the BIMObject Cloud are channeled and integrated, through Apps, into CAD/BIM applications to create a business-to-business communication across the globe.

Manufacturers use BIMObject® to promote and deliver their products directly into BIM processes enabling their products to be selected and generate a real improvement in sales.
